CUBISCAN® 150

CUBISCAN

Warehousing and Distribution

- Eliminates manual data entry and protects data integrity
- Provides data for storage location selection, carton selection and shipment planning
- Provides data for use in facility layout, pallet stacking and load optimization software packages

Other features

- Compatible with APACHE Cubidata and Qbit for software interface
- Visual readout instantly displays dimensions, weight and dimensional-weight
- Can be deployed in mobile (with casters) or stationary configurations
- Uses sensing technology that is safe for both operator and package contents
- Type-approved and certified as a legal-for-trade cubing and weighing device

CUBISCAN® 150

Physical Specifications

Length	165 cm
Width	132 cm
Height	221 cm
Weight	195 kg

Performance Specifications

		Length	Width	Height
Measure Range	Standard	8 cm to 120 cm	6 cm to 100 cm	6 cm to 100 cm
	Europa MID	8 cm to 120 cm	6 cm to 100 cm	6 cm to 100 cm
Measure Increment	Standard	0,2 cm		
	Europa MID	0,5 cm		
Weight Capacity	Standard	0,02 to 70 kg		
	Europa MID	1 kg to 60 kg		
Weight Increment	Standard	0,02 kg		
	Europa MID	0,50 kg		
Legal for Trade		yes		

Other technical data

Measuring Sensor	Ultrasonic
Connectivity	Ethernet (10/100 MBit), Serial (RS232); USB
Power Requirements	100-240 VAC, 50-60 Hz
Operating Conditions	**Temperature:** -10°C to 40°C **Humidity:** 0% to 90% non-condensing
Display	digital display and control panel

The **CubiScan® 150** - a versatile tool for today's dimension and weight-based freight manifesting applications. Designed for use in distribution, direct fulfillment and logistics environments, the 150 combines the attributes of flexibility, accuracy and durability into one attractive and functional package. The CubiScan 150 is mounted on locking casters, so it can be operated in a fixed position or quickly moved and redeployed when necessary. Each unit has two active serial communication ports, one serial printer port and an Ethernet port allowing for network connection and data transfer.

With an optional PC-based interface (called Qbit™), the CubiScan 150 is capable of buffering thousands of data records, can interface to bar code scanning equipment, label printing devices and can communicate directly (in batch or real-time mode) with your manifesting or warehouse management system.
